2023 Single-Family Homes Application

Answer to Question Submitted

Issued and Posted: August 4, 2023

QUESTION: If we intend to build Floor Plan A in multiple sites, how would you like us to calculate Land Acquisition Cost? Since all lots differ in square footage, do I take an average based on the number of sites? Please advise.

ANSWER: On Exhibit E if more than one home is being proposed for a floor plan and the lots are different sizes use the average of the costs for all such homes in Section 3 (Finished Lot Costs) for the following line items: Acquisition Cost, Lot Clearing, Fill Dirt and Infrastructure.
